## Product Datasheet

### EXOGL Antibody / ENDOGL1 / Endonuclease G-like 1, Goat, Polyclonal NSJ-R34348-100UG

|                          |                                                                                            |
|--------------------------|--------------------------------------------------------------------------------------------|
| Artikelname              | EXOGL Antibody / ENDOGL1 / Endonuclease G-like 1, Goat, Polyclonal                         |
| Artikelnummer            | NSJ-R34348-100UG                                                                           |
| Hersteller Artikelnummer | R34348-100UG                                                                               |
| Alternativnummer         | NSJ-R34348-100UG                                                                           |
| Hersteller               | NSJ Bioreagents                                                                            |
| Wirt                     | Goat                                                                                       |
| Kategorie                | Antikörper                                                                                 |
| Applikation              | ELISA, WB                                                                                  |
| Spezies Reaktivität      | Human                                                                                      |
| Immunogen                | Amino acids KAKEQSGTQIRKP were used as the immunogen for this EXOGL antibody.              |
| Produktbeschreibung      | Additional name(s) for this target protein: Endo/exonuclease (5-3), endonuclease G-like... |
| Klonalität               | Polyclonal                                                                                 |
| Reinheit                 | Antigen affinity                                                                           |
| Formulierung             | 0.5 mg/ml in 1X TBS, pH7.3, with 0.5% BSA (US sourced) and 0.02% sodium azide              |
| Antibody Type            | Primary Antibody                                                                           |
| Application Verdünnung   | Western blot: 0.1-0.3ug/ml, ELISA (peptide) LOD: 1:128000                                  |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Optimal dilution of the EXOG antibody should be determined by the researcher. |
