| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant full-length human protein was used as the immunogen for the MTF1 antibody.                                                                                                                                                                      |
| Produktbeschreibung      | The metal-responsive element (MRE)-binding transcription factor (MTF-1) stimulates the expression of metallothioneins in response to the exposure of cells to heavy metals. MTF-1 contains six zinc fingers in the DNA binding domain. The phosphorylation... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MTF1/2649]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q14872</a>                                                                                                                                                                                                                                        |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Reinheit               | Protein G affinity chromatography                                             |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                |
| Antibody Type          | Primary Antibody                                                              |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                         |
| Anwendungsbeschreibung | Optimal dilution of the MTF1 antibody should be determined by the researcher. |
