| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant human partial protein (amino acids 74-213) was used as the immunogen for the Langerin antibody.                                                                                                                                                 |
| Produktbeschreibung      | Langerhans cells (LCs) are a subset of immature dendritic cells (DCs) that specifically localize in the epidermis and other mucosal epithelia. Epidermal LCs possess strong immuno-stimulatory capacity and play a central role in the initiation and regu... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [LGRN/1821]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q9UJ71</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein G affinity chromatography                                                                                                                                                                                                                             |

|                        |                                                                                   |
|------------------------|-----------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide        |
| Antibody Type          | Primary Antibody                                                                  |
| Application Verdünnung | ELISA (order BSA-free format for coating),Western blot: 1-2ug/ml                  |
| Anwendungsbeschreibung | Optimal dilution of the Langerin antibody should be determined by the researcher. |
