| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | WB                                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Immunogen                | A recombinant human partial protein (amino acids 165-273) were used as the immunogen for this SDHB antibody.                                                                                                                                                   |
| Produktbeschreibung      | Succinate dehydrogenase (SDH) is Complex II in the mitochondria, vital for mitochondrial electron transport, as well as Krebs cycle function. Four subunits comprise the SDH protein complex: a flavochrome subunit (SDHA), an iron-sulfur protein (SDHB) a... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [SDHB/2382]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P21912</a>                                                                                                                                                                                                                                         |
| Reinheit                 | Protein G affinity chromatography                                                                                                                                                                                                                              |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                |
| Antibody Type          | Primary Antibody                                                              |
| Application Verdünnung | Western blot: 2-4ug/ml                                                        |
| Anwendungsbeschreibung | Optimal dilution of the SDHB antibody should be determined by the researcher. |
