| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant full-length human protein was used as the immunogen for this recombinant pS2 antibody. Its epitope is located in the c-terminal region of human pS2 protein.                                                                                    |
| Produktbeschreibung      | It recognizes a polypeptide of 6.5kDa, identified as pS2 estrogen-regulated protein. Its epitope is located in the c-terminus of human pS2 protein. pS2 is a trefoil peptide. Trefoil peptides are protease resistant molecules secreted throughout the gu... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rTFF1/1091]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P04155</a>                                                                                                                                                                                                                                        |

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| Reinheit               | Protein G affinity chromatography                                                        |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide               |
| Antibody Type          | Primary Antibody                                                                         |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml (not suitable for frozen tissues)                  |
| Anwendungsbeschreibung | Optimal dilution of the recombinant pS2 antibody should be determined by the researcher. |
