| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant human partial protein (amino acids 109-229) was used at the immunogen for this UPK1B antibody.                                                                                                                                                  |
| Produktbeschreibung      | The protein encoded by this gene is a member of the transmembrane 4 superfamily, also known as the tetraspanin family. Most of these members are cell-surface proteins that are characterized by the presence of four hydrophobic domains. The proteins me... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [UPK1B/3102]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">O75841</a>                                                                                                                                                                                                                                        |

|                        |                                                                                |
|------------------------|--------------------------------------------------------------------------------|
| Reinheit               | Protein G affinity chromatography                                              |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide     |
| Antibody Type          | Primary Antibody                                                               |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                          |
| Anwendungsbeschreibung | Optimal dilution of the UPK1B antibody should be determined by the researcher. |
