| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant full-length human protein was used as the immunogen for this vWF antibody.                                                                                                                                                                      |
| Produktbeschreibung      | Von Willebrand Factor (vWF) is a multimeric glycoprotein that is found in endothelial cells, plasma and platelets. It acts as a carrier protein for Factor VIII and promotes platelet adhesion and aggregation. vWF undergoes a variety of posttranslation... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [VWF/2480]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P04275</a>                                                                                                                                                                                                                                        |

|                        |                                                                              |
|------------------------|------------------------------------------------------------------------------|
| Reinheit               | Protein G affinity chromatography                                            |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide   |
| Antibody Type          | Primary Antibody                                                             |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                        |
| Anwendungsbeschreibung | Optimal dilution of the vWF antibody should be determined by the researcher. |
