| Wirt                     | Mouse                                                                                                                                                                                                                                                                      |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                                 |
| Applikation              | ELISA                                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                      |
| Immunogen                | A recombinant human partial protein (amino acids 7-96) was used as the immunogen for this Calbindin 1 antibody.                                                                                                                                                            |
| Produktbeschreibung      | The family of EF-hand type Ca <sup>2+</sup> -binding proteins includes Calbindin D28K, Calbindin D9K, S-100 (also designated oncomodulin). Calbindin D28K, also known as calbindin, CALB1, D-28K or vitamin D-dependent calcium-binding protein, is a 261-amino acid pr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                 |
| Klon-Bezeichnung         | [CALB1/2364]                                                                                                                                                                                                                                                               |
| UniProt                  | <a href="#">P05937</a>                                                                                                                                                                                                                                                     |
| Reinheit                 | Protein G affinity chromatography                                                                                                                                                                                                                                          |

|                        |                                                                                      |
|------------------------|--------------------------------------------------------------------------------------|
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                       |
| Antibody Type          | Primary Antibody                                                                     |
| Application Verdünnung | ELISA (order BSA-free format for coating)                                            |
| Anwendungsbeschreibung | Optimal dilution of the Calbindin 1 antibody should be determined by the researcher. |
