| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IHC-P                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | The HF B1 plasmacytoid cell line was used as the immunogen for this CD72 antibody.                                                                                                                                                                            |
| Produktbeschreibung      | CD5 has been identified as a transmembrane glycoprotein that is expressed on 70% of normal peripheral blood lymphocytes and on virtually all T lymphocytes in thymus and peripheral blood. Activation of T cells through the T cell receptor (TCR) results... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [BU40]                                                                                                                                                                                                                                                        |
| UniProt                  | <a href="#">P21854</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein G affinity chromatography                                                                                                                                                                                                                             |

|                        |                                                                                             |
|------------------------|---------------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                  |
| Antibody Type          | Primary Antibody                                                                            |
| Application Verdünnung | Flow cytometry: 1-2ug/10 <sup>6</sup> cells in 0.1ml, Immunohistochemistry (FFPE): 1-2ug/ml |
| Anwendungsbeschreibung | Optimal dilution of the CD72 antibody should be determined by the researcher.               |
