| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IF, WB                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Other                                                                                                                                                                                                                                                         |
| Immunogen                | Phosphotyrosine was used as the immunogen for the Phosphotyrosine antibody.                                                                                                                                                                                   |
| Produktbeschreibung      | Protein phosphorylation is a fundamental event in the regulation of a large number of intracellular processes. Phosphorylation of specific tyrosine residues is the result of activation or stimulation of their respective protein tyrosine kinases. The ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PY265]                                                                                                                                                                                                                                                       |
| Reinheit                 | Protein G affinity chromatography                                                                                                                                                                                                                             |
| Formulierung             | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                                                                                                                                                                                    |

|                        |                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                |
| Application Verdünnung | Flow cytometry: 1-2ug/10 <sup>6</sup> cells,Immunofluorescence: 1-2ug/ml,Western blot: 1-2ug/ml |
| Anwendungsbeschreibung | Optimal dilution of the Phosphotyrosine antibody should be determined by the researcher.        |
