| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human full-length protein was used as the immunogen for the Transthyretin antibody.                                                                                                                                                               |
| Produktbeschreibung      | Prealbumin, also designated transthyretin, is a major thyroid-hormone binding protein involved in transporting thyroxine from the bloodstream to the brain. Prealbumin is located in the cytoplasm and in the vesicles of developing rat brain cells, and ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [TTR/4292]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P02766</a>                                                                                                                                                                                                                                        |

|                        |                                                                                        |
|------------------------|----------------------------------------------------------------------------------------|
| Reinheit               | Protein G affinity chromatography                                                      |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide             |
| Antibody Type          | Primary Antibody                                                                       |
| Application Verdünnung | Western blot: 2-4ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT      |
| Anwendungsbeschreibung | Optimal dilution of the Transthyretin antibody should be determined by the researcher. |
