| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human Mammaglobin-1 protein was used as the immunogen for the recombinant Mammaglobin antibody.                                                                                                                                       |
| Produktbeschreibung      | Mammaglobin is a 93 amino acid glycoprotein with homology to other secretoglobin-uteroglobin family members. It was originally identified as a breast cancer restricted biomarker by differential screening. Mammaglobin related to secretoglobin family t... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MGB/4057R]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q13296</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A affinity chromatography                                                                |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                       |
| Antibody Type          | Primary Antibody                                                                                 |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT                                       |
| Anwendungsbeschreibung | Optimal dilution of the recombinant Mammaglobin antibody should be determined by the researcher. |
