| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IF, IHC-P, WB                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Human epidermal keratin was used as the immunogen for the Pan Cytokeratin antibody.                                                                                                                                                                           |
| Produktbeschreibung      | Twenty human keratins are resolved with two-dimensional gel electrophoresis into acidic (pI 6.0) subfamilies. This antibody cocktail recognizes acidic (Type I or LMW) and basic (Type II or HMW) cytokeratins, which 67kDa (CK1), 64kDa (CK3), 59kDa (CK4... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SPM115 + SPM116]                                                                                                                                                                                                                                             |
| UniProt                  | <a href="#">Q7Z794</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                                          |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                                       |
| Antibody Type          | Primary Antibody                                                                                                              |
| Application Verdünnung | Flow cytometry: 1-2ug/million cells,Immunofluorescence: 1-2ug/ml,Western blot: 1-2ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml |
| Anwendungsbeschreibung | Optimal dilution of the Pan Cytokeratin antibody should be determined by the researcher.                                      |
