| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 23-119 was used as the immunogen for the CD3 epsilon antibody.                                                                                                                                                                       |
| Produktbeschreibung      | Recognizes the epsilon-chain of CD3, which consists of five different polypeptide chains (designated as gamma, delta, epsilon, zeta, and eta) with MW ranging from 16-28kDa. The CD3 complex is closely associated at the lymphocyte cell surface with the... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rC3e/2479]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P07766</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                      |
|------------------------|--------------------------------------------------------------------------------------|
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                       |
| Antibody Type          | Primary Antibody                                                                     |
| Application Verdünnung | ELISA: 2-4ug/ml (for coating order BSA-free format)                                  |
| Anwendungsbeschreibung | Optimal dilution of the CD3 epsilon antibody should be determined by the researcher. |
