| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 220-335 was used as the immunogen for the Anaplastic Lymphoma Kinase antibody.                                                                                                                                                       |
| Produktbeschreibung      | The wild-type anaplastic lymphoma kinase (ALK) protein is a 200kDa transmembrane receptor tyrosine kinase. Its expression is restricted to a few scattered cells in the nervous system (some glial cells and neurons, and a few endothelial cells and peri... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ALK/1032]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">Q9UM73</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                     |
|------------------------|-----------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                             |
| Antibody Type          | Primary Antibody                                                                                    |
| Application Verdünnung | Western blot: 1-2ug/ml                                                                              |
| Anwendungsbeschreibung | Optimal dilution of the Anaplastic Lymphoma Kinase antibody should be determined by the researcher. |
