| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 100-250 was used as the immunogen for the Haptoglobin antibody.                                                                                                                                                                      |
| Produktbeschreibung      | As a result of hemolysis, hemoglobin is found to accumulate in the kidney and is secreted in the urine. Haptoglobin captures, and combines with free plasma hemoglobin to allow hepatic recycling of heme iron and to prevent kidney damage. Haptoglobin a... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [HP/3839]                                                                                                                                                                                                                                                     |
| UniProt                  | <a href="#">P00738</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                      |
|------------------------|--------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide              |
| Antibody Type          | Primary Antibody                                                                     |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                |
| Anwendungsbeschreibung | Optimal dilution of the Haptoglobin antibody should be determined by the researcher. |
