| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 27-158 was used as the immunogen for the PDGF beta antibody.                                                                                                                                                                         |
| Produktbeschreibung      | PDGF is a mitogen for mesenchyme- and glia-derived cells. It consists of two disulfide-bonded polypeptide chains, A and B, and occurs as three isoforms, PDGF AA, AB and BB. The three isoforms bind, with different affinities, to two receptor types, re... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PDGFB/3071]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P01127</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                    |
|------------------------|------------------------------------------------------------------------------------|
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                     |
| Antibody Type          | Primary Antibody                                                                   |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                              |
| Anwendungsbeschreibung | Optimal dilution of the PDGF beta antibody should be determined by the researcher. |
