| Kategorie                | Antikörper                                                                                                                                                                                                                                            |
| Applikation              | IHC-P                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                 |
| Immunogen                | A portion of amino acids 1-132 was used as the immunogen for the<br>Fatty Acid Binding Protein 4 antibody.                                                                                                                                            |
| Produktbeschreibung      | Fatty acid-binding proteins, designated FABPs, are a family of<br>homologous, cytoplasmic proteins that are expressed in a highly<br>tissue-specific manner and play an integral role in the balance<br>between lipid and carbohydrate metabolism.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                            |
| Klon-Bezeichnung         | [FABP4/4429]                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">P15090</a>                                                                                                                                                                                                                                |

|                        |                                                                                                       |
|------------------------|-------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                  |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                               |
| Antibody Type          | Primary Antibody                                                                                      |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                                 |
| Anwendungsbeschreibung | Optimal dilution of the Fatty Acid Binding Protein 4 antibody should be determined by the researcher. |
