| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 300-500 was used as the immunogen for the Ku80 antibody.                                                                                                                                                                             |
| Produktbeschreibung      | The Ku protein is localized in the nucleus and is composed of subunits referred to as Ku-70 (or p70) and Ku-86 or (p86) which is also known by the synonym Ku-80 or (p80). Ku was first described as an autoantigen to which antibodies were produced in a... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [XRCC5/7317]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P13010</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                |
| Antibody Type          | Primary Antibody                                                              |
| Application Verdünnung | Western blot: 1-2ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml                  |
| Anwendungsbeschreibung | Optimal dilution of the Ku80 antibody should be determined by the researcher. |
