| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Fusion protein amino acids 1-41 (N-terminus) and 218-235 (C-terminus) of mouse BKBeta2 (accession number Q9CZM9) produced recombinantly in E. Coli                                                                                                            |
| Konjugation              | FL650                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Our Anti-BKbeta2 K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N53/32. It detects human, mouse, and rat BKBeta2 K+ channel, and is purified by Protein A chromatography. It is great for use in ICC... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N53/32]                                     |
| Molekulargewicht       | 27 kDa                                       |
| Isotyp                 | IgG2a                                        |
| UniProt                | <a href="#">Q9CZM9</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | BKbeta2 K+ channel                           |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
