| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                             |
| Wirt                     | Mouse                                                                                                                                                                                                                                               |
| Kategorie                | Antikörper                                                                                                                                                                                                                                          |
| Applikation              | ELISA, ICC, IHC, IP, WB                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human, Mouse, Rabbit, Rat                                                                                                                                                                                                                           |
| Immunogen                | Fusion protein amino acids 84-309 (SH3/PDZ domains) of rat Shank2 (accession number Q9QX74) produced recombinantly in E. Coli                                                                                                                       |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                        |
| Produktbeschreibung      | Our Anti-Shank2 mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N23B/6. It detects human, mouse, and rat Shank2, and is purified by Protein A chromatography. It is great for use in IHC, ICC, IP, WB.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                          |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                             |

|                        |                                                                                    |
|------------------------|------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [N23B/6]                                                                           |
| Molekulargewicht       | 160 kDa                                                                            |
| Isotyp                 | IgG1                                                                               |
| UniProt                | <a href="#">Q9QX74</a>                                                             |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.18                     |
| Target-Kategorie       | Shank2                                                                             |
| Antibody Type          | Primary Antibody                                                                   |
| Application Verdünnung | Dilution Range: WB: 1:1000. Dilution Range: IHC: 1:500. Dilution Range: ICC: 1:500 |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                                       |
