| Applikation              | ICC, IHC                                                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                                          |
| Immunogen                | Fusion protein amino acids 1019-1293 (cytoplasmic loop between repeat II and repeat III) of human Cav3.2 (accession number O95180), epitope mapped to amino acids 1179-1192 (AEDGRAAPGPRATP) produced recombinantly in E. Coli                                                        |
| Konjugation              | FL650                                                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | Our Anti-Cav3.2 Ca <sup>2+</sup> channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N55/10. It is KO validated, detects human and mouse Cav3.2 Ca <sup>2+</sup> channel, and is purified by Protein A chromatography. It is great f... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                            |

|                        |                                              |
|------------------------|----------------------------------------------|
| Konzentration          | 0.5 mg/mL                                    |
| Klon-Bezeichnung       | [N55/10]                                     |
| Molekulargewicht       | 260 kDa                                      |
| Isotyp                 | IgG1                                         |
| UniProt                | <a href="#">O95180</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | Cav3.2 Ca <sup>2+</sup> channel              |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
