| Wirt                     | Mouse                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                  |
| Applikation              | ICC                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                       |
| Immunogen                | Fusion protein amino acids 782-945 (intracellular C-terminus) of<br>mouse Neuroigin-4* (accession number ABS19580) produced<br>recombinantly in E. Coli                                                                                     |
| Konjugation              | FL650                                                                                                                                                                                                                                       |
| Produktbeschreibung      | Our Anti-Neuroigin-4* mouse monoclonal primary antibody from<br>NeuroMab is produced in-house from hybridoma clone N98/47. It<br>detects mouse Neuroigin-4*, and is purified by Protein A<br>chromatography. It is great for use in ICC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                  |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                   |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N98/47]                                     |
| Molekulargewicht       | 125-130 kDa                                  |
| Isotyp                 | IgG1                                         |
| UniProt                | ABS19580                                     |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | Neuroligin-4*                                |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
