| Produktbeschreibung      | Our Anti-Nav1.8 Na <sup>+</sup> channel mouse monoclonal primary antibody<br>from NeuroMab is produced in-house from hybridoma clone N134/12.<br>It is KO validated, detects human, mouse, and rat Nav1.8 Na <sup>+</sup><br>channel, and is purified by Protein A chromatography. It is gr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                                     |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                                                        |

|                        |                                                                                    |
|------------------------|------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [N134/12]                                                                          |
| Molekulargewicht       | 220 kDa                                                                            |
| Isotyp                 | IgG2a                                                                              |
| UniProt                | <a href="#">Q62968</a>                                                             |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.93                     |
| Target-Kategorie       | Nav1.8 Na <sup>+</sup> channel                                                     |
| Antibody Type          | Primary Antibody                                                                   |
| Application Verdünnung | Dilution Range: WB: 1:1000. Dilution Range: IHC: 1:250. Dilution Range: ICC: 1:250 |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                                       |
