| Wirt                     | Mouse                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                   |
| Applikation              | ICC                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Mouse, Rat                                                                                                                                                                                                                   |
| Immunogen                | Fusion protein amino acids 1659-1738 (cytoplasmic C-terminus) of rat NALCN (accession number Q6Q760) produced recombinantly in E. Coli                                                                                       |
| Konjugation              | FL650                                                                                                                                                                                                                        |
| Produktbeschreibung      | Our Anti-NALCN mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N185/7. It detects mouse and rat NALCN, and is purified by Protein A chromatography. It is great for use in ICC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                   |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                    |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N185/7]                                     |
| Molekulargewicht       | 200 kDa                                      |
| Isotyp                 | IgG1                                         |
| UniProt                | <a href="#">Q6Q760</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | NALCN                                        |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
