| Kategorie                | Antikörper                                                                                                                                                                                                                                                             |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                                      |
| Immunogen                | Fusion protein amino acids 360-445 (cytoplasmic C-terminus) of<br>human GABA-A-R-Gamma2L (accession number P18507-2) produced<br>recombinantly in E. Coli                                                                                                              |
| Konjugation              | FL594                                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our Anti-GABA-A-R-Gamma2L mouse monoclonal primary antibody<br>from NeuroMab is produced in-house from hybridoma clone N452/69.<br>It detects human, mouse, and rat GABA-A-R-Gamma2L, and is<br>purified by Protein A chromatography. It is great for use in IHC, I... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                             |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                              |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N452/69]                                    |
| Molekulargewicht       | 45 kDa                                       |
| Isotyp                 | IgG2a                                        |
| UniProt                | <a href="#">P18507</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | GABA-A-R-Gamma2L                             |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
