| Kategorie                | Antikörper                                                                                                                                                                                                                                                  |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                    |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                           |
| Immunogen                | Fusion protein amino acids 350-720 of human NOS1 (accession<br>number P29475) produced recombinantly in E. Coli                                                                                                                                             |
| Konjugation              | FL490                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | Our Anti-nNOS/NOS1 mouse monoclonal primary antibody from<br>NeuroMab is produced in-house from hybridoma clone L121/25. It<br>detects human, mouse, and rat nNOS/NOS1, and is purified by<br>Protein A chromatography. It is great for use in IHC, ICC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                  |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                   |

|                        |                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [L121/25]                                                                                                             |
| Molekulargewicht       | 155-165 kDa for full-length protein, smaller fragments possible due to proteolysis and/or variable sample preparation |
| Isotyp                 | IgG2b                                                                                                                 |
| UniProt                | <a href="#">P29475</a>                                                                                                |
| Puffer                 | PBS with 0.09% azide                                                                                                  |
| Target-Kategorie       | nNOS/NOS1                                                                                                             |
| Antibody Type          | Primary Antibody                                                                                                      |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                                                                          |
