| Kategorie                | Antikörper                                                                                                                                                                                                                                                      |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Gallus, Xenopus, Zebrafish                                                                                                                                                                                                                                      |
| Immunogen                | Fusion protein amino acids 153-335 of zebrafish TPTE (accession<br>number Q4V9E4) produced recombinantly in E. Coli                                                                                                                                             |
| Konjugation              | FL594                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Our Anti-VSP/TPTE mouse monoclonal primary antibody from<br>NeuroMab is produced in-house from hybridoma clone N432/21. It<br>detects chicken, Xenopus, zebrafish VSP/TPTE, and is purified by<br>Protein A chromatography. It is great for use in IHC, ICC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                      |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                       |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N432/21]                                    |
| Molekulargewicht       | 40-60 kDa                                    |
| Isotyp                 | IgG2a                                        |
| UniProt                | <a href="#">Q4V9E4</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | VSP/TPTE                                     |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
