| Spezies Reaktivität      | Virus                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Ebolavirus (EVD) belongs to the Filoviridae family of proteins which is comprised of a single-strand, non-infectious RNA genome. EVD genome is about 19,000 base pairs long and covers 7 genes in the order 3-UTR-NP-VP35-VP40-GP-VP30-VP24-L-5-UTR. There... |
| Konzentration            | 0.76 mg/ml                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 15 kDa                                                                                                                                                                                                                                                        |
| Tag                      | C-terminal His Tag                                                                                                                                                                                                                                            |
| Quelle                   | Escherichia Coli.                                                                                                                                                                                                                                             |
| Reinheit                 | >95% pure as determined by 12% SDS-PAGE (Coomassie blue stain).                                                                                                                                                                                               |
| Formulierung             | Liquid Phosphate buffer and 0.02% sodium azide                                                                                                                                                                                                                |
