## Product Datasheet

### PPAR gamma Protein ASB-OPRB00116

Artikelname	PPAR gamma Protein
Artikelnummer	ASB-OPRB00116
Hersteller Artikelnummer	OPRB00116
Alternativnummer	ASB-OPRB00116-10UG
Hersteller	Aviva
Kategorie	Antikörper
Applikation	WB
Immunogen	This nuclear receptor functions as a transcription factor and plays an important role in controlling differentiation and fatty acid metabolism. Activation of this receptor appears to be vital in modulating the expression of metabolic control proteins and consequently controlling fatty acid metabolism in cardiac muscle. This marker may be a useful drug target for therapeutic intervention in cardiac disease. PPAR gamma is also involved in the pathogenesis of important metabolic disorders such as obesity and non-insulin-dependent diabetes (NIDDM). Aviva Systems Biology recombinant human PPAR gamma is expressed in E. coli with an amino-terminal hexahistidine tag. This product is for research use only and is not intended for diagnostic or therapeutic use
Molekulargewicht	59. 2kDa
Reinheit	>95% by SDS-PAGE
Formulierung	Liquid.
