| Alternativnummer         | ASB-ARP33392_P050-25UL,ASB-ARP33392_P050-100UL                                                                                                                                                                                                                |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | ChIP, WB                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat, Zebrafish                                                                                                                                                                                      |
| Immunogen                | The immunogen is a synthetic peptide directed towards the middle region of human TAF2                                                                                                                                                                         |
| Produktbeschreibung      | Initiation of transcription by RNA polymerase II requires the activities of more than 70 polypeptides. The protein that coordinates these activities is transcription factor IID (TFIID), which binds to the core promoter to position the polymerase prop... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 137kDa                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">6873</a>                                                                                                                                                                                                                                          |

|              |                                                                                                   |
