| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Bovine, Canine, Equine, Goat, Guinea pig, Human, Mouse, Rabbit, Rat, Sheep                                                                                                                                                                                    |
| Immunogen                | The immunogen is a synthetic peptide directed towards the C terminal region of human STAT1                                                                                                                                                                    |
| Produktbeschreibung      | STAT1 is a member of the STAT protein family. In response to cytokines and growth factors, STAT family members are phosphorylated by the receptor associated kinases, and then form homo- or heterodimers that translocate to the cell nucleus where they ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 87kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                   |
