| Alternativnummer         | ASB-ARP46637_T100-25UL,ASB-ARP46637_T100-100UL                                                                                                                                                                                                                |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat                                                                                                                                                                                                         |
| Immunogen                | The immunogen is a synthetic peptide directed towards the C terminal region of human UST                                                                                                                                                                      |
| Produktbeschreibung      | UST catalyzes the transfer of sulfate to the position 2 of uronyl residues. UST has mainly activity toward iduronyl residues in dermatan sulfate, and weaker activity toward glucuronyl residues of chondroitin sulfate. It has no activity toward desulfa... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1.0 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 48kDa                                                                                                                                                                                                                                                         |
