| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat, Zebrafish                                                                                                                                                                                      |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human PRDX1                                                                                                                                                                    |
| Produktbeschreibung      | PRDX1 is a member of the peroxiredoxin family of antioxidant enzymes, which reduce hydrogen peroxide and alkyl hydroperoxides. It may play an antioxidant protective role in cells, and may contribute to the antiviral activity of CD8(+) T-cells. This p... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 22kDa                                                                                                                                                                                                                                                         |
