| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human ING1                                                                                                                                                                     |
| Produktbeschreibung      | ING1 is a tumor suppressor protein that can induce cell growth arrest and apoptosis. The protein is a nuclear protein that physically interacts with the tumor suppressor protein TP53 and is a component of the p53 signaling pathway. Reduced expression... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 47kDa                                                                                                                                                                                                                                                         |
