| Immunogen                | The antiserum was produced against synthesized peptide derived from human Caspase 6. AA range:130-179                                                                                                                                                         |
| Produktbeschreibung      | This gene encodes a member of the cysteine-aspartic acid protease (caspase) family of enzymes. Sequential activation of caspases plays a central role in the execution-phase of cell apoptosis. Caspases exist as inactive proenzymes which undergo proteo... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 20+35kD                                                                                                                                                                                                                                                       |
| NCBI                     | <a href="#">839</a>                                                                                                                                                                                                                                           |
