| Immunogen                | The antiserum was produced against synthesized peptide derived from human VEGFR2 around the phosphorylation site of Tyr1214. AA range:1180-1229                                                                                                               |
| Produktbeschreibung      | Vascular endothelial growth factor (VEGF) is a major growth factor for endothelial cells. This gene encodes one of the two receptors of the VEGF. This receptor, known as kinase insert domain receptor, is a type III receptor tyrosine kinase. It functi... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 152kD                                                                                                                                                                                                                                                         |
