| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                              |
| Immunogen                | The antiserum was produced against synthesized peptide derived from human Cyclin C. AA range:234-283                                                                                                                                                           |
| Produktbeschreibung      | The protein encoded by this gene is a member of the cyclin family of proteins. The encoded protein interacts with cyclin-dependent kinase 8 and induces the phosphorylation of the carboxy-terminal domain of the large subunit of RNA polymerase II. The l... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                        |
| Molekulargewicht         | 33-37kD                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">892</a>                                                                                                                                                                                                                                            |

|                        |                                                                                    |
