| Immunogen                | Synthesized peptide derived from part region of human protein                                                                                                                                                                                                 |
| Produktbeschreibung      | miscellaneous:5 FOXD4-like proteins (FOXD4L2, FOXD4L3, FOXD4L4, FOXD4L5 and FOXD4L6) are encoded by a strongly repeated region of the 9q12 chromosome region. They are very similar and it is therefore difficult to provide a clear and unambiguous prote... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Molekulargewicht         | 45kD                                                                                                                                                                                                                                                          |
