### HRP Conjugated Anti-Myc Tag Mouse Monoclonal Antibody (2D5) ASC-ABT2065

|                          |                                                                                                                                                      |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | HRP Conjugated Anti-Myc Tag Mouse Monoclonal Antibody (2D5)                                                                                          |
| Artikelnummer            | ASC-ABT2065                                                                                                                                          |
| Hersteller Artikelnummer | ABT2065                                                                                                                                              |
| Alternativnummer         | ASC-ABT2065-50, ASC-ABT2065-200                                                                                                                      |
| Hersteller               | Abbkine Scientific                                                                                                                                   |
| Wirt                     | Mouse                                                                                                                                                |
| Kategorie                | Antikörper                                                                                                                                           |
| Applikation              | WB                                                                                                                                                   |
| Spezies Reaktivität      | Bacteria, Mammal                                                                                                                                     |
| Immunogen                | Synthetic Peptide                                                                                                                                    |
| Konjugation              | HRP                                                                                                                                                  |
| Produktbeschreibung      | Featured HRP Conjugated Anti-Myc Tag Mouse Monoclonal Antibody (2D5), specially designed for your tagged protein quantification and localization.... |
| Klonalität               | Monoclonal                                                                                                                                           |
| Tag                      | Myc                                                                                                                                                  |
| Puffer                   | Liquid in PBS, pH 7.4 and 50% Glycerol.                                                                                                              |
| Reinheit                 | The antibody was affinity-purified from mouse ascites by affinity-chromatography using specific immunogen                                            |

|                        |                                                                                                                                                     |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid solution                                                                                                                                     |
| Anwendungsbeschreibung | Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:1000-1:3000). |
