TraKine(TM) Mitochondrion and Nuclear Staining Kit ASC-KTC4005

Artikelname	TraKine(TM) Mitochondrion and Nuclear Staining Kit
Artikelnummer	ASC-KTC4005
Hersteller Artikelnummer	KTC4005
Alternativnummer	ASC-KTC4005-100, ASC-KTC4005-500, ASC-KTC4005-2000
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Produktbeschreibung	Abbkine TraKine(TM) Mitochondrion and Nuclear Staining Kit provides two stain for mitochondrial and nuclear staining....
Tag	Mitochondrion
Anwendungsbeschreibung	Abbkine TraKine(TM) Mitochondrion and Nuclear Staining Kit provides two stains-Orange fluorescent MitoOrange (Ex/Em = 579/599 nm) and blue-fluorescent Hoechst 33342 (Ex/Em: 350/461 nm, when bound to DNA) for highly selective mitochondrial and nuclear staining, respectively, in live, GFP-transfected cells. Both dyes are retained after formaldehyde fixation and permeabilization. The fluorescence can be measured using fluorescence imaging, high-content imaging, microplate fluorometry, or flow cytometry. This kit is suitable for proliferating and non-proliferating cells, and can be used for both suspension and adherent cells.
