Human Protein quaking (QKI) ELISA Kit ASC-KTE61006

Artikelname	Human Protein quaking (QKI) ELISA Kit
Artikelnummer	ASC-KTE61006
Hersteller Artikelnummer	KTE61006
Alternativnummer	ASC-KTE61006-48, ASC-KTE61006-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Protein quaking (QKI) ELISA Kit employs a two-site sandwich ELISA to quantitate QKI....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	QKI
NCBI	9444
UniProt	Q96PU8
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Protein quaking (QKI) ELISA Kit employs a two-site sandwich ELISA to quantitate QKI in samples. An antibody specific for QKI has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any QKI present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for QKI is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of QKI bound in the initial step. The color development is stopped and the intensity of the color is measured.
