Product Datasheet

Human Prolactin regulatory element-binding protein (PREB) ELISA Kit ASC-KTE61177

Artikelname	Human Prolactin regulatory element-binding protein (PREB) ELISA Kit
Artikelnummer	ASC-KTE61177
Hersteller Artikelnummer	KTE61177
Alternativnummer	ASC-KTE61177-48, ASC-KTE61177-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Prolactin regulatory element-binding protein (PREB) ELISA Kit employs a two-site sandwich ELISA to quantitate PREB....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	PREB
NCBI	10113
UniProt	Q9HCU5
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Prolactin regulatory element-binding protein (PREB) ELISA Kit employs a two-site sandwich ELISA to quantitate PREB in samples. An antibody specific for PREB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and anyPREB present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PREB is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PREB bound in the initial step. The color development is stopped and the intensity of the color is measured.
