Human Formylmethionine (fMET) ELISA Kit ASC-KTE62623

Artikelname	Human Formylmethionine (fMET) ELISA Kit
Artikelnummer	ASC-KTE62623
Hersteller Artikelnummer	KTE62623
Alternativnummer	ASC-KTE62623-48, ASC-KTE62623-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Formylmethionine (fMET) ELISA Kit employs a two-site sandwich ELISA to quantitate fMET....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	fMET
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Human Formylmethionine (fMET) ELISA Kit employs a two-site sandwich ELISA to quantitate fMET in samples. An antibody specific for fMET has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any fMET present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for fMET is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of fMET bound in the initial step. The color development is stopped and the intensity of the color is measured.
