Mouse Reactive oxygen species (ROS) ELISA Kit ASC-KTE71621

Artikelname	Mouse Reactive oxygen species (ROS) ELISA Kit
Artikelnummer	ASC-KTE71621
Hersteller Artikelnummer	KTE71621
Alternativnummer	ASC-KTE71621-48, ASC-KTE71621-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Mouse
Produktbeschreibung	Null employs a two-site sandwich ELISA to quantitate ROS in samples....
Detektionsbereich	30 IU/mL-480 IU/mL
Sensitivitaet	1.0 IU/mL
Tag	ROS
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	Mouse Reactive oxygen species (ROS) ELISA Kit employs a two-site sandwich ELISA to quantitate ROS in samples. An antibody specific for ROS has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any ROS present is bound by the immobilized antibody. After removing any unbound substances, HRP-Conjugate Mouse ROS detection antibody is added to the wells. Following a wash to remove any unbound HRP reagent, a Chromogen solution is added to the wells and color develops in proportion to the amount of ROS bound in the initial step. The color development is stopped and the intensity of the color is measured.
