| Hersteller               | Abbkine Scientific                                                                                                                                                                                                                                            |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Interleukin 17B (IL-17B) predicts a molecular mass of 20.4 kDa, is expressed in several peripheral tissues and immune tissues. In contrast to the high level of IL-6 secretion stimulated by IL-17A, IL-17B failed to induce IL-6 secretion in fibroblasts... |
| Molekulargewicht         | 18.99 kDa                                                                                                                                                                                                                                                     |
| Tag                      | IL-17B                                                                                                                                                                                                                                                        |
| UniProt                  | <a href="#">Q9QXT6</a>                                                                                                                                                                                                                                        |
| Reinheit                 | >98% as determined by SDS-PAGE.                                                                                                                                                                                                                               |
| Formulierung             | Lyophilized from PBS, pH 7.4                                                                                                                                                                                                                                  |
| Sequenz                  | Amino acid sequence derived from Mouse IL-17B (Met 21-Phe 180) (Q9QXT6) was expressed with 6*His tag at the C-terminus                                                                                                                                        |
| Anwendungsbeschreibung   | Mouse                                                                                                                                                                                                                                                         |
