| Hersteller               | Krishgen Biosystems                                                                                                                                                                                                                                           |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | The GENLISA Human Interleukin 2 Receptor Beta (IL-2-RB / IL2RB) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision ... |
| Detektionsbereich        | 78 - 5000 pg/ml                                                                                                                                                                                                                                               |
| Sensitivitaet            | 29 pg/ml                                                                                                                                                                                                                                                      |
| Proben                   | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                |
