| Produktbeschreibung      | This gene encodes a member of the aquaporin family of intrinsic membrane proteins that function as waterselective channels in the plasma membranes of many cells. This protein is the predominant aquaporin found in brain and has an important role in br... |
| Tag                      | GFP Tag                                                                                                                                                                                                                                                       |
