## Product Datasheet

**EIF4EBP1, phosphorylated (Thr36) (Eukaryotic Translation Initiation Factor 4E-binding Protein 1, 4E-BP1, eIF4E-binding Protein 1, Phosphorylated Heat- and Acid-stable Protein Regulated by Insulin 1, PHAS-I) (APC), Rabbit  
USB-0004-21H-APC**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Immunogen                | KLH-conjugated synthetic phosphopeptide mapping to amino acid residues surrounding Thr36 of human EIF4EBP1. Species Sequence Homology: bovine, mouse and rat                                                                                                  |
| Produktbeschreibung      | EIF4EBP1 is a member of a family of translation repressor proteins. This protein directly interacts with eukaryotic translation initiation factor 4E (eIF4E), which is a limiting component of the multisubunit complex that recruits 40S ribosomal subuni... |
| NCBI                     | <a href="#">004086</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by Protein A and peptide affinity chromatography                                                                                                                                                                                                     |

|              |                                                                          |
|--------------|--------------------------------------------------------------------------|
| Formulierung | Supplied as a liquid in PBS, pH 7.2. Labeled with Allophycocyanin (APC). |
