| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | Sequence (linear): SVKVEDKDFPSTCSKK MOP3 (BMAL1), a general dimerization partner for a subset of the bHLH-PAS (basic-helix-loop-helix-PER-ARNT-SIM) superfamily of transcription regulators, is involved in circadian rhythm generation. MOP3 interacts wi... |
| Reinheit                 | Highly purified (HPLC, MS)                                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in PBS. No preservative added. Conjugated with KLH.                                                                                                                                                                                      |
